EXPERIENCE

MagTek, Seal Beach, CA —*User Experience Engineer*
Nov 2022- Present
- ❖ Implemented front-end solutions using HTML, CSS, and JavaScript using ASP.NET Razor pages to create interactive and responsive user interfaces for fintech applications.
- ❖ Collaborated with UX designers to translate design wireframes and prototypes into functional code, ensuring a seamless user experience.
- ❖ Optimized front-end performance by leveraging techniques such as code minification, caching, and image optimization, resulting in improved page load times.
- ❖ Integrated front-end code with back-end systems and APIs to enable seamless data exchange and functionality.
- ❖ Conducted cross-browser and device compatibility testing to ensure consistent experiences for users across various platforms.

InvestCloud, West Hollywood, CA — *Front End Engineer*
Aug 2020 - July 2022
- ❖ Produced interactive digital interfaces using proprietary technology
- ❖ Worked with the design team and design tools (e.g. Invision, Sketch, etc) to deliver new screens using proprietary Stylesheet Development tools.
- ❖ Developed web functionality according to business and architecture requirements
- ❖ Built for desktop, tablet and mobile applications
- ❖ Implemented UX workflows
- ❖ Participated in brainstorming and other idea-generating team sessions
- ❖ Worked with Project Manager to ensure project completion within budgetary and time constraints
- ❖ Configured and customize existing products according to client specifications
- ❖ Assisted QA and Support with debugging and proposed solutions
- ❖ Utilized best practices to develop applications in a sustainable, scalable process

Avant & Gaarde, Portland, Oregon —*Front End / Content Manager*
Jan 2016- Jun 2018
- ❖ Edited custom Shopify theme utilizing HTML/CSS/JavaScript/JQuery/Shopify Liquid
- ❖ Developed and implemented custom Stylesheets, CSS 3 animations to enhance UI/UX
- ❖ Created custom ad campaigns for the homepage
- ❖ Prepared rough draft PSDs and presented ideas/user stories

EDUCATION

General Assembly, Santa Monica, CA — *Software Engineering Bootcamp*
June 2019 - Jan 2020
- ❖ Immersed into an environment that enabled me to build multiple front-end and full-stack applications utilizing the MERN/MEN/JAM/Python/Django stacks.
- ❖ Exercised best practices using appropriate git-flow and kanban approaches
- ❖ Maintained design workflow and processes establishing priorities and meeting deadlines
- ❖ Executed a mobile-first design model while creating web applications
